THIS WILL BE THE BOAT DOCTOR'S 22st SEASON AS A PREFERRED SHRINK WRAP VENDOR AT SUNNYSIDE MARINA.

Boaters,

We wanted to let you know in advance about a few changes happening this season to the shrink wrap process at Sunnyside. We wanted to give you advance notice to anticipate an increase in the cost of shrink wrap this year. Shrink wrap film prices have increased significantly from last year. We have also seen significant increases in strapping, tape, and lumber as well. Historically we have adjusted our prices marginally over the years to account for small increases, but due to these significant cost increases we will have to pass some of these costs on. We will have final pricing to you very soon.

We will also be moving to a length overall (LOA) billing style for shrink wrap. With the advent of extended swim platforms, dinghy's, PWC and other boating accessories adding to the overall length of the boats, we want to make sure everyone is paying accordingly for their boat. We will use a highly accurate laser measuring device to measure the length overall when we wrap each boat and bill accordingly. Please keep this in mind as last years billed length may differ from the actual LOA of your boat.

Sunnyside has also streamlined shrink wrap sign up. There will be an option to select shrink wrap on their haul out contract. We will receive the shrink wrap portion as soon as you submit it. This will be the best way to sign up for shrink wrap this year. There will be forms available in their office as well if you wanted to fill out a paper copy, but this will be redundant if you have already done the electronic version.

If you have any questions or concerns feel free to reach out to us.

**Thanks,
The Boat Doctor**
