Tired of Spending Your R&R Time Cooking?

Boating is fun, but let's be honest, it's a lot of work too! What if you could work less and relax more? Well, we are excited to announce that food trucks have been secured for almost every Friday from May through September. That's 18 less meals you have to worry about!

It's hard finding food trucks that are willing to work on a fee-for-service basis. Most trucks have a minimum purchase amount and some require the minimum payment prior to the date-of-service. The trucks listed below have all agreed on the fee-for-service platform, so please help support them every Friday! If the food trucks significantly benefit from coming to our marina, then we might be able to secure a larger variety of trucks for the 2024 boating season.
