

# MEMBER ROSTER

Our member roster is a great tool to get to know your neighbors on the dock and organize groups. For those that wish to have contact information listed, we have space to include the slip number, name, boat name, one or two phone numbers and one or two email addresses. If you do not wish to have your contact information listed, we will simply list the slip number and name.

The completed roster will be available for pickup after the first of June.

If you would like your contact information listed please return this information no later than **April 15<sup>th</sup>**.
