

Dear Sunnyside customer,

We would like to thank you for your business this past boating season and for your continued business this spring and summer. Spring launch of your boat is not far off, so it is a good time to think about and schedule the following items:

- **Shrink wrap removal**
- **Bottom painting or bottom cleaning**
- **Buffing and waxing**
- **Boat names**
- **Spring cleaning and detailing**
- **Carpet cleaning or flooring replacement**
- **Canvas repair, cleaning and waterproofing**
- **Wash programs**
- **Surveys**

In the up and coming weeks we will follow up with you by giving you a phone call to confirm launch dates, wrap removal, and services needed. The Boat Doctor usually removes your shrink wrap approximately one week prior to your boat's scheduled launch date. If you would like to make other arrangements with us for removal, just let us know and we will accommodate your request. If you choose to remove your own shrink wrap, please follow these steps.

- 1. Remove all the white strapping from the shrink wrap that is running around the perimeter of your hull sides. Failure to do this could result in our load getting rejected at the recycling facility.**
- 2. Cut the shrink wrap down the center of the boat and let it fall to the ground.**
- 3. Roll the shrink wrap into 2 rolls or cut it in half once more so they are easily moved.**
- 4. Tuck the shrink wrap rolls under your boat.**

We will pick your shrink wrap up and place it in the recycling trailer. This allows us to make the most of our space by packing the trailer properly.

Some of you may already be aware of the new services we have been providing over the last few years. For the last two years, we also have been doing marine surveys. Our surveyors are Master Marine Surveyors and can do pre-purchase condition and value surveys, basic surveys, insurance required surveys, and sea trials. You can reach them directly at survey@BoatDoctorMN.com for all your survey needs. In addition we have also been creating and installing boat names over the last four years. Many of you may have used this service for naming your new boat or replacing an old name and it has been a pleasure to work with you all. Our goal is to work with you to create a design for your boat name exactly the way you want it. You can reach Jono at jono@BoatDoctorMN.com or **651-675-8327** for all your vinyl graphic needs.

This year, we are excited to announce that we have become the local dealer and installer for Aqua Traction, a local MN company that prides itself for excellent customer service, the fastest lead times in the industry, and a superior product. These flooring types have become increasingly popular over the last few years and I'm sure you have seen some already. They are a great addition to a swim platform, or even a total flooring replacement in the cockpit of your boat. If you have any interest or questions, feel free to reach out to Jono.

We hope your winter is going well and we will talk with you soon. All of us at The Boat Doctor are looking forward to partnering up with Sunnyside Marina again this year to provide you with an enjoyable care-free 2020 boating season.

Thank You,

Dominic Hoyos
